GOOD NEWS

ON THE ROAD The logistics of getting large numbers of children to their weekly match fixtures, regional and provincial trials is always a major challenge for the Grootbos Foundation, which is operational at six sites in the Overberg, six days a week, making a difference to over 5 000 children's lives a year. Therefore, Kia Motors Hermanus's contribution to a shiny new silver Kia Picanto to assist, couldn't have come at a better time. Sean and Pauline Smith of Kia Motors Hermanus identified the need to support the local community and have been very generous in their support and understanding of the challenges that are faced. Kia Motors Hermanus opened four years ago and were awarded KIA Dealer of the year for 2015. "Dealing with them, one can see that this accolade is well deserved. They were extremely thorough, efficient and quick in their processing of the car and an absolute pleasure to deal with," says Ruth Crichton, marketing manager of the Grootbos Foundation.
